ABOUT ME

As a highly skilled Flutter developer with three years of extensive experience, I am proficient in creating visually stunning, high-performance mobile applications that run seamlessly on iOS and Android platforms. I am passionate about transforming innovative ideas into user-friendly and engaging digital experiences, and I am confident in my ability to deliver exceptional results.

WORK EXPERIENCE

MOBILE DEVELOPER

03/2023 - CURRENT

TENDOPAY I MAKATI, PHILIPPINES

- Developed "TendoPay," an innovative installment solution for online shopping in the Philippines that provides a flexible and convenient way for managing payments for online purchases
- Spearheaded end-to-end development and collaborated with cross-functional teams
- Successfully integrated third-party APIs to enhance the app's functionality and expand the user base

MOBILE DEVELOPER

07/2022 - 02/2023

TENTONY I BAKU, AZERBAIJAN

- Developed and contributed significantly to the success of "Tentony," an expansive e-commerce application that has established itself as a prominent online shopping and selling platform in Azerbaijan.
- Collaborated closely with UX/UI designers to implement visually appealing designs, playing a key role in positioning the app as a top-rated event management solution on both iOS and Android platforms.
- Resulted in heightened user engagement and widespread recognition, solidifying "Tentony" as a market leader in the region's e-commerce industry.

MOBILE DEVELOPER

03/2021 - 06/2021

BAKU CREATIVE PROJECTS I BAKU, AZERBAIJAN

- Spearheaded the development of "Wibty," a pioneering social media platform acknowledged as Azerbaijan's first successful venture in this domain.
- Engineered an innovative application that allows users to effortlessly post, listen to music, and connect with new contacts concurrently, creating a distinctive social environment.
- Employed the BLoC package for streamlined state management, resulting in a 25% reduction in app loading times and a marked enhancement in overall user satisfaction.

MOBILE DEVELOPER

10/2020 - 12/2022

INLOYA I BAKU, AZERBAIJAN

- Engaged in the development of diverse mobile applications, notably contributing to e-commerce platforms like "Rahat Kart," "Bouquet," and "Lilac.az".
- Additionally, played a pivotal role in creating food delivery applications, explicitly working on client-side interfaces and partner/courier interfaces such as Tezibu Partner and Tezibu Courier.
- Actively collaborated with clients throughout the requirements-gathering phase, ensuring a comprehensive understanding of objectives, ultimately reducing development iterations substantially.
